- BELT DRIVE COMPRESSORS
- LOW NOISE COMPRESSORS

The UK's leading supplier of compressed air technology

ABAC UK, part of the worldwide ABAC Group, offer specialist compressed air products that benefit from over 50 years of technological development.

With our unrivalled experience in the development of modern air compressor design, ABAC bring to you the most comprehensive range of compressed air equipment. Designed to offer all users a reliable, efficient and durable product, manufactured to the highest standard.

QUALITY
All ABAC products are manufactured to the highest specification and in accordance with stringent international standards. The modern production facilities at ABAC are among the most technologically advanced available anywhere in the world, allowing us to offer consistently high quality.

As leaders in the field of compressed air we provide the highest level of support, with every product backed up by a comprehensive warranty and nationwide technical assistance. The facilities and support offered to all of our customers is in line with that expected of a world renowned manufacturer of the highest repute.

The quality of our products is only matched by the quality of our after sales service which is geared toward complete customer satisfaction.

From the largest factory installation through to the individual requirements of the tradesman, we are able to offer a complete solution satisfying the requirements of the most demanding application.

OUR COMMITMENT
The success of the ABAC group has been based upon a constant commitment in terms of design, quality, safety and innovation. We constantly strive to offer the most technologically advanced products that offer real benefits to all users of compressed air, whatever their requirements.

Oil Less and Lubricated Direct Drive Portable Air Compressors

Portable, compact and tough, ideal for workshop and professional trade use.
